

SMFACTS

Issue #29

Dear Members of the Manufacturing Industry,

SMF ACTS May Day Special Edition

In conjunction with May Day and to celebrate labour here in Singapore, the Ministry of Manpower has worked together with the SMF and employers to send their May Day greetings to thank the local and foreign workforce in Singapore.

Take a look at the surprise videos below:

The SMF will continue to work closely with the Singapore Government and its associated Ministries to celebrate labour and to recognize its importance to our economy.

Happy May Day!

SMF Easing Measures Feedback Survey

The SMF would like to seek your input on how you think the re-opening of your respective industry sectors (i.e. Manufacturing, Retail, F&B and Construction) can be staged and what would be the factors / considerations before the opening up can be considered.

This is taking into account the need to be vigilant against re-infections in the population/workforce and trying to move businesses towards business-as-usual operations.

Your input matters. Your submissions will be collated and forwarded to relevant agencies. Take the SMF Easing Measures Feedback Survey below.

Easement of Certain Circuit Breaker Measures by MOH

The Multi-Ministry Taskforce will ease some of the tighter circuit breaker measures, which were announced on 21 April 2020, progressively over the coming weeks. At the same time, we are preparing for the safe and gradual resumption of economic and community activities after the end of the circuit breaker period on 1 June 2020.

The MOH plans to phase in the reopening of work premises, taking into account their importance to the economy and supply chains, their contribution to local employment, and their ability to minimise risks of transmission at their workplaces. To do so safely, they will be imposing more stringent requirements on all employers and firms.
