

## **ELECTRONIC CERTIFICATE OF ORIGIN (eCO)**

eCO system is a web-based Certificate of Origin (CO) application and certification system. It provides an integrated, electronic process for faster online application of the Ordinary Certificate of Origin (CO). It provides a single interface for exporters to apply for CO conveniently.

Through the use of the eCO system, you can enjoy the convenience of seamless electronic transactions that will result in substantial time and cost savings. The Certificate of Origin can be printed conveniently from your desktop, hence saving your time and cost. You can also forward the Certificate of Origin to another party electronically via the eCO system.

**Benefits of using eCO include:**

- Convenience**
  - Apply online (no need to buy pink forms)
  - Re-use information from previous application(s)
- Save costs**
  - Save costs on travelling and courier costs
- More assurance for your overseas partners**
  - The CO printed is protected by multiple optical document security features
  - eCO data is immutable on our blockchain platform. Easy to verify hardcopy against eCO
